## \*Why Are Inconel Valves Important?

Inconel (in-kuh-nel) valves are made of a nickel-based super alloy with high corrosion and oxidation resistance. These valves are very robust in high temperature environments and help provide creep resistance.

Select Reviva cylinder heads contain Inconel Valves. See Product Bulletin or contact the Reviva Inside Sales Team for details.

**Warranty Coverage:** New and remanufactured cylinder heads from Reviva carry a 12 month part warranty and 6 month limited labor warranty. Maximum labor payout is \$1500.00 USD.
