### APPLICATIONS

The GM 4.8L and 6.0L are popular engines in Workhorse Isuzu and Freightliner chassis step van applications including parcel package, snack food, bread, uniform/laundry and other commercial delivery vehicles. These engines are also found in GMC 2500-3500 Express and Savana vans, Sierra 1500-3500 pickups, Silverado 1500-3500 pickups, Surbanban 1500-3500, Yukon XL 1500-2500, Sierra Denali 2500-3500.

### ENGINE IDENTIFICATION

To determine correct part number, please supply the vehicle VIN number.

### CONFIGURATION:

Complete Drop-In

### ABOUT THE REVIVA GM LS 4.8L & 6.0L SERIES

- All Reviva engines are assembled in the USA.
- Complete drop-in with value added top end components. No need to waste time or sacrifice quality by re-installing used parts or sourcing components from various suppliers.
- Complete with factory installed OE stainless steel exhaust manifolds.
- Compare the actual time and money saved by installing a drop-in vs. transferring parts and hoping the engine will run properly.
- Dyno tested with the OEM GM ECM, specific to application, not generic or modified to "get it close."
- During dyno testing, engines are fully monitored with OEM GM Scan Tool and precision analog gauges.
- Do not settle for a "live run" or sim tested engine; Dyno testing is the only accurate method to prove performance and eliminate issues at install.
- Reviva has the fastest manufacturing and shipping time in the industry. Same day shipping.

### WARRANTY COVERAGE

Complete Drop-In configurations: 2yr/unlimited mileage, complete engine.\*

*Some restrictions apply; see limited warranty details or call for more information.*
