ABOUT THE REVIVA 6.6L DURAMAX

- All Reviva engines are assembled in the USA.
- Blocks and crankshafts are 100% magnaflux tested to avoid cracked components.
- Aluminum cylinder heads are dyed to check for cracks.
- Crankshaft is checked for size and micro-polished to OEM specifications. If necessary, it is re-ground re-nitrated and micro-polished to OEM specifications.
- Connecting rods have new bushings installed and both large and small end are remachined to OEM specifications.
- All connecting rods are de-magnetized.
- All heads get new valves and are vacuum tested to ensure the quality of the valve job. All heads are pressure tested.
- Core plugs are 100% stainless steel to avoid corrosion.
- Reviva replaces 100% internal wear items including rings, bearings, bushings, gaskets, and seals.

WARRANTY COVERAGE
